

Wind Farm Log

The Farmhouse, Grays Farm, North Drove Bank, Spalding, Lincs.

noticed occasionally mid-June - started to become problematic from June 21st.  
recording started June 25th

Actual Days	Days inconvenience d (Total)	Date	Time	Problem	'Whoosh'	Pulse	Hum
1	1	6/25/2006	15.00 to 23.00	Significant noise and sensations	Yes	Yes	Yes
2	1	6/26/2006	05.00 - 07.00 and 22.00 - 24.00	11.5 revolutions per min and grinding/rumble heard at night	Yes	Yes	Yes
3	1	6/27/2006	22.00-24.00	grinding/rumble heard at night	Yes	Yes	Yes
4	1	6/28/2006	04.00 to 07.00 & 20.00 to 24.00	Very loud	Yes	Yes	Yes
5	1	6/29/2006	04.00 to 07.00 & 17.00 to 24.00	Very loud	Yes	Yes	Yes
6	1	6/30/2006	04.00 to 08.00 & 17.00 to 24.00	Very loud	Yes	Yes	Yes
7	1	7/1/2006	16.00 -17.00	Then we were out for rest of night	Yes	Yes	Yes
8	1	7/2/2006	17.00 - 24.00	Tried to have a BBQ and had to go inside due to noise and vibration - felt by guests also.. Difficult to get to sleep. Wind SSE, SSW	Yes	Yes	Yes
9	0	7/3/2006					
10	1	7/4/2006	19.00 to 24.00	Loud vibration/hum disturbed sleep	Yes	Yes	Yes
11	1	7/5/2006					
12	1	7/6/2006	19.15 - 24.00	Hum returns as No. 5 turbine is switched on - had been off most of day	Yes	Yes	Yes
13		7/7/2006					
14	1	7/8/2006	05.30 - 08.30	Left to go on holiday (did NOT need to wake up at 5 am!!)	Yes	Yes	Yes
15	0	7/9/2006		Holiday - Away			
16	0	7/10/2006		Holiday - Away			
17	0	7/11/2006		Holiday - Away			
18	0	7/12/2006		Holiday - Away			
19	0	7/13/2006		Holiday - Away			
20	0	7/14/2006		Holiday - Away			
21	0	7/15/2006		Holiday - Away			
22	0	7/16/2006		Holiday - Away			
23	0	7/17/2006		Holiday - Away			
24	0	7/18/2006		Holiday - Away			
25	0	7/19/2006		Holiday - Away			
26	0	7/20/2006		Holiday - Away			
27	0	7/21/2006		Holiday - Away, throughout holiday all of us slept till at least 9 am. No headaches, or earaches whilst away. Turbines off when we returned home.			
28	1	7/22/2006	04.37 - 07.30	Woken at 04.37, ears pulsing, whoosh, throb and house humming. I cried.	Yes	Yes	Yes
29		7/23/2006		Slept till 08.30 and 09.17 respectively. No noise			
30		7/24/2006					
31	1	7/25/2006	19.00 - 23.00	Too loud to sit comfortably in garden.	Yes	Yes	Yes
32		7/26/2006					
33		7/27/2006					
34		7/28/2006					
35	1	7/29/2006	19.30 - 23.00	Could be heard over combines!	Yes	Yes	Yes
36	1	7/30/2006	19.30 - 23.01	Could be heard over combines!	Yes	Yes	Yes
37	1	7/31/2006	20.00 - 24.15	heard over rainstorm and very intrusive afterwards	Yes	Yes	Yes
38	1	8/1/2006	04.37 -	woken by house humming and ears pulsing. Wind from SW, fast and noisy.	Yes	Yes	Yes
39	1	8/2/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
40	1	8/3/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
41	1	8/4/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
42	1	8/5/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes

Fridge on/off

43	1	8/6/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
44	1	8/7/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
45	1	8/8/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
46	1	8/9/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
47	1	8/10/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
48	1	8/11/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
49	1	8/12/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
50	1	8/13/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
51	1	8/14/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
52	1	8/15/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
53	1	8/16/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
54	1	8/17/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
55	1	8/18/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
56	1	8/19/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly, whoosh present as well	Yes		Yes
57	1	8/20/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
58	1	8/21/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
59	1	8/22/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
60	1	8/23/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
61	1	8/24/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
62	1	8/25/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
63	1	8/26/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly and whoosh	Yes		Yes
64	1	8/27/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
65	1	8/28/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
66	1	8/29/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
67	1	8/30/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly			Yes
68	1	8/31/2006	06.00 - 23.00	Hum Very noticeable early morning and evening then joined tonight by very loud acoustic noises of the whoosh and thump.	Yes	Yes	Yes
69	1	9/1/2006	04.44	woken by house humming and ears pulsing. Turbines whooshing and thumping fast and noisy.	Yes	Yes	Yes
70	1	9/2/2006	04.38	woken by house humming and ears pulsing. Turbines whooshing and thumping fast and noisy. Eventually got back to sleep by putting fan on facing wall.	Yes	Yes	Yes
71	1	9/3/2006	13.00 - 23.00	Away night of 02/09/06 Hum noticeable on return on 03/09/06 evening particularly			Yes
72	1	9/4/2006	06.00 - 22.00	Hum Very noticeable early morning and evening particularly			Yes
73	1	9/5/2006	04.00- 07.00	Whoosh back - not loud but insidious plus hum, disturbed sleep	Yes		Yes
74	1	9/6/2006	04.47	woken by house humming and ears pulsing. Turbines whooshing and thumping fast and noisy. Eventually got back to sleep by putting fan on facing wall.	Yes	Yes	Yes
75	1	9/7/2006	05.35 -23.00	Hum very loud and "rattly"			Yes

76	1	9/8/2006	02.00 - 24.00	Woke at 02.00 to go to the toilet, still awake at 03.43. Hum more of a noisy grinding in the background than a hum, and not easy to get back to sleep. Hum and whoosh very noticeable at midnight	yes		Yes
77	1	9/9/2006	04.44 - 23.00	Woke briefly and could hear hum but went back to sleep as had taken sleeping tablets			yes
78	1	9/10/2006	07.40 - 24.00	Hum noticeable but slept through with the help of sleeping tablets. Thick mist this morning but hum still noticeable. Turbines very noisy at bedtime - all nacelles pointing our way.	Yes	Yes	Yes
79	1	9/11/2006	04.44 - 23.30	Nacelles all pointing our way, so very noisy through the night. Nacelles VERY noisy in the day as well creating the horrible harmonic in the farm yard. All residents affected in both houses.	Yes	Yes	Yes
80	1	9/12/2006	04.40 - 23.00	Nacelles all pointing our way, so very noisy through the night. Tried to have a lie in and watch television in the bedroom - totally impossible due to flicker - nacelles pointing directly at us.	Yes	Yes	Yes
81	1	9/13/2006	04.40; 06.40; - 23.00	Nacelles all pointing our way, so very noisy through the night. Eventually went to sleep with a prescription sleeping tablet and the fan on. Woke briefly at 04.40 as turbine noise distinguishable above fan, but went back to sleep again. Woke properly at 06.40, turbines whooshing and grinding noise apparent as well as hum. Later in the day/evening turbine noise much reduced, only to pick up at 22.00 again!	Yes	Yes	Yes with grinding too.
82	1	9/14/2006	06.40	Turbines noisy early morning and quite distracting. Hum also evident	Yes		Yes
83	1	9/15/2006	06.50	Turbines noisy early morning and quite distracting. Hum also evident			Yes
84	1	9/16/2006	02.10; 03.30; 04.32; 05.10, 06.30 - 24.00	Windy night but hum very noticeable. Has elements of a distant engine rattling noise in it. All electricity turned off in house but hum/whine still very noticeable. Went outside and turbines going faster than normal clockwise. Hum also evident in buildings and whoosh/thump evident when outside. Had my first study day of a new diploma course, but so tired I was unable to concentrate. Over tired going to bed and eventually had to take two sleeping tablets one at 9 p.m. and one at midnight, and sleep with the fan on. Julian needed to cultivate but fell asleep for three hours after lunch, he too needed sleeping tablets, the fan and earplugs to try and sleep.			Yes with grinding too.
85	1	9/17/2006	03.30 and 04.35 and 6.30 onwards, still apparent at 23.00	The hum/whine/drone seems incessant. We are so tired today that the simplest things, following a recipe, assembling a cupboard seem impossible. Everyone very tired and totally exhausted. This is not living anymore.			Yes with grinding too.
86	1	9/18/2006	01.10, and 05.11	Again the hum/drone/whine seems incessant and almost impossible to override with anything. Whooshing and thumping late at night 23.00	Yes	Yes	Yes
87	1	9/19/2006	06.00 - 23.00	Hum Very noticeable early morning and evening particularly		Yes	Yes
88	1	9/20/2006	17.00 - 24.00	Quite a windy day, turbine whoosh started to become noticeable over wind at 5 p.m.. By 10 p.m. we had the harmonic effect back with us. Imagine trying to sleep with a washing machine on a fast spin, intermittently!	Yes	Yes	Yes

89	1	9/21/2006	00.00 - 24.00	Washing machine fast spin harmonic on full pelt. Noise unbelievable. Estimated at 55 DB (A). Can be heard over television!	Yes	Yes	Yes
90	1	9/22/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
91	1	9/23/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly			Yes
92	1	9/24/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly. Very quiet late at night so turbines easily heard and intrusive	Yes	Yes	Yes
93	1	9/25/2006	06.00 - 23.00	Hum noticeable early morning and evening particularly. Windy Day generally			Yes
94	1	9/26/2006		Hum noticeable early morning and evening particularly. Windy Day generally			Yes
95	1	9/27/2006		Hum noticeable early morning and evening particularly. Whoosh very very intrusive in early evening, rained later but noise still evident over rain and wind	Yes		Yes
96	1	9/28/2006	06.30 -23.00	Hum noticeable early morning and evening particularly. Windy Day generally, but turbines noisy going to bed, sleeping tablet required.	Yes	Yes	Yes
97	1	9/29/2006	04.30, 06.30	Woke to whoosh, whoosh but went back to sleep (sleeping tablet). Turbines whooshing well, and hum distinctly obvious. We had our yearly very late night ball tonight. Both so tired that at 10.30 we were yawning and desperate for bed.... This is a much looked forward to event that goes on till 3 am, which is never normally a problem - but tonight it was ruined for us by our sheer exhaustion. We stayed in a Travelodge right on the busy Helpringham roundabout and slept soundly till 07.20. No hum there!	Yes		Yes
98	1	9/30/2006	13.00 - 22.30	Did not get home till 1pm. Windy day so any noise from turbines as in whoosh was masked. Dreaded hum still very apparent though			Yes
99	1	10/1/2006	06.45 -24.00	It would be really helpful to know what was happening last night, Sat 30th from about 5 p.m. until 1 am. Particularly between 9.30pm and 11.30 when we were trying to get to sleep.....The whoosh was very loud, insistent and at less than 2s intervals. The thump was also very audible. The noise was clearly audible over the television and over the thunder	Yes	Yes	Yes
100	1	10/2/2006	00.00 - 01.00, 06.30 - 22.30	Whoosh and thump heard until 1 am (when we were last awake) Hum noticeable early morning and evening particularly	Yes	Yes	Yes
101	1	10/3/2006		Hum always seems much louder when wind is fast and from the north. And it's tone changes too			Yes
102	1	10/4/2006		Recovered Data: Hum always seems much louder when wind is fast and from the north. And it's tone changes too			Yes
103	1	10/5/2006		Recovered Data: Hum always seems much louder when wind is fast and from the north. And it's tone changes too			Yes
104	1	10/6/2006	03.20; 05.20	Recovered Data: Woke up to the whoosh, and thump, so we guess the wind has suddenly changed			Yes
105	1	10/7/2006		Computer lost data			Yes
106	1	10/8/2006		Computer lost data			Yes
107	1	10/9/2006		Odd thing today wind from north/north west and about 6pm it was obvious that 1 turbine was interfering with two.			Yes

108	1	10/10/2006		Lightening strike blew up nearby transformer so we had no electric for 17 hours. Hum still present though and very noticeable in the quiet.			Yes	
109	1	10/11/2006					Yes	
110	1	10/12/2006		Hum very loud - particularly at 11pm. Monitoring equipment in today.			Yes	
111	1	10/13/2006	4:30	Woke early. Stayed awake. Hum penetratingly loud			Yes	
112	1	10/14/2006	04.00, 07.00 - 24.00	Very foggy morning. Hum very noticeable by guests sleeping in house who found themselves woken up by it.			Yes	
113	1	10/15/2006		We slept at other end of the windfarm last night and slept all night without waking up at all and no hum detectable either. Bliss!			Yes	
114	1	10/16/2006		Very foggy and hum very noticeable, woke several times in night.			Yes	off overnight
115	1	10/17/2006		Whoosh and thump have returned...not to the levels that they were when really bad in the summer, but still easily detectable Hum extremely loud.	Yes	Yes	Yes	off overnight Teenage tantrum. 22.5- - 23.40
116	1	10/18/2006		Hum very noticeable again today.			Yes	on
117	1	10/19/2006	03.30, 04.30, 06.00	The whoosh is back! Again not to the levels that we had in the summer but enough to wake you up thoroughly. All day today we have had what we believe to be AERODYNAMIC MODULATION. Particularly late afternoon and all evening. The so-called harmonic has also been present and the whoosh has been clearly audible indoors as well as out. the hum is louder than normal as well.	Yes	Yes	Yes	off overnight
118	1	10/20/2006	00.58, 04.24	Woken up by the whoosh effect twice. Didn't get back to sleep after 4 am which wasn't good as I had a study day in London. Totally exhausted. Noise intolerable at times. Hum also very noticeable as is the grinding noise.	Yes	Yes	Yes	on
119	1	10/21/2006	5:45	woken by the whoosh, some blade noise distinguishable in yard.	Yes			off tonight
120	1	10/22/2006		Hum very loud and penetrating, occasionally masked by loud winds outside - but not often enough.	Yes		Yes	on
121	1	10/23/2006	4.28 am	Woken by the whoosh and thump, couldn't go back to sleep. Terribly tired. Decided to go away for the night.	Yes	Yes	Yes	on
122	1	10/24/2006	17:00	Away last night, in a hotel by a road. Slept all night till 07.20. BLISS! On return Turbines audible as a whoosh. Hum ever present.	Yes		Yes	
123	1	10/25/2006	Hum all the time	slept with sleeping tablet. Some blade noise, Hum persistent, WD40 noise also apparent.	Yes		Yes	
124	1	10/26/2006	Hum all the time	slept with sleeping tablet. Some blade noise, Hum persistent, WD40 noise also apparent.	Yes		Yes	
125	1	10/27/2006	Hum all the time	Slept last night with sleeping tablet. A different whoosh noise today - more of a swish, wind from north or west, hum as always noticeable and wd40 noise apparent too.	Yes	Yes	Yes	
126	1	10/28/2006	Hum all the time	Jane slept away last night and slept till 08.40 straight through! Hum not as discernible at home, but turbines easily audible by Julian.	Yes		Yes	

127	1	10/29/2006	Hum all the time. AM in evening.	Julian and Jane slept out last night! Oh Yes! And slept all night till 08.45! No hum in our friends house, which is on a busy road and we slept with the windows open and the traffic didn't bother us either! At 22.00 tonight we had the closest we have had to the awful noise in the summer that we now know to be aerodynamic modulation. Closest in terms of volume, level, and synchronisation of the turbines. Averages and Leq's at 50+ dB(A). Actuals were 62 at one point.	Yes	Yes	Yes	
128	1	10/30/2006		Amazingly good day. Wind was causing all turbines to operate independently, running across the farm rather than along it. Some swish audible but not intrusive and the wind noise more or less drowned the hum out			Yes	
129	1	10/31/2006		Last night we slept all night!!!!!!!!!!!!!! Woke to slight WD40 sound and some hum but not till 06.30! 2.30 pm Turbines whooshing very very loudly again - wind direction southerly and the racket is back - clearly audible over quite a loud wind noise.	Yes	Yes	Yes	
130	1	11/1/2006		Very difficult getting to sleep last night hum and WD40 noise very penetrative and distracting. Occasional swish heard also. Took sleeping tablet at 00.38 and woke at 6.20 am...Went to see Dennis & Cilla at Pepper Hill farm who asked what progress was being made - they hear occasional whoosh BUT they can also hear the harmonic when it occurs as well! They describe it as like a train coming towards them that never arrives and is worrying, distracting and penetrating.	Yes	Yes	Yes	
131	1	11/2/2006		Woke up with headache - all of us! North wind and wd40 and hum apparent. Decamped at 7.20 pm to sleep out overnight.....			Yes	
132	1	11/3/2006		Slept brilliantly woke at 6.30 and was able to snuggle down and go back to sleep again for an hour. Returned home to hum at 09.00 ish. Decamped at 10pm to sleep out overnight again....			Yes	off overnight
133	1	11/4/2006		Slept ALL night. Woke at 07.20 feeling better than we have done for ages! No hum in that house! Back home in day - Left again at 18.00 to sleep out again			Yes	off overnight
134	1	11/5/2006	15.18 .....	Slept ALL night. Woke at 08.20 feeling fantastic! Back home hum still present and at 3.18 pm it seemed as if the turbines were modulating again - but wind direction almost perpendicular to the turbines and whoosh very distinct and can be heard over potato lifter and television.	Yes		Yes	
135	1	11/6/2006		Slept at home last night - hum very apparent, woke at 04.30 to hum			Yes	
136	1	11/7/2006		Slept out and slept all night - bliss			Yes	
137	1	11/8/2006	04.30 am	Slept at home last night - hum very apparent, woke at 04.30 to hum. NB there will some odd episodes of modulation at 2.20 to 2.45pm - they are a demonstration CD that we were using for a visitor.			Yes	
138	1	11/9/2006		slept out last night but left all fridges etc on			Yes	
139	1	11/10/2006		slept out last night but left all fridges etc on			Yes	
140	1	11/11/2006		Slept at home last night - woke at 5 am, and couldn't go back to sleep - hum distinct.			Yes	

141	1	11/12/2006		slept out last night but left all fridges etc on			Yes
142	1	11/13/2006	4.29 am	Woke at 4 am to swish, swish and audible WD40 noise - didn't get up to push switch, and went back to sleep about 5 am. WD40 and swish audible 7 am onwards.			Yes
143	1	11/14/2006		slept out last night but left all fridges etc on			Yes
144	1	11/15/2006		It was probably a very bad idea to sleep out so much lately. Last night was hell again. Difficult to get to sleep with WD40, hum and AM and whoosh all very apparent, woke at 5.30 am to whoosh, thud, wd40 and hum. Got up. And put the television on - another mistake as flicker was very apparent on the upstairs television in our room and made us feel sick. (NB Dishwasher went on at 5.00 am by mistake - should have been 6.00). so back to 5 hours sleep and hence feeling awful again. Incredibly noisy this pm - seven onwards - so we left home - again. Not sure what's happening as its dark .....	Yes	Yes	Yes
145	1	11/16/2006		Slept out last night.			Yes
146	1	11/17/2006		Slept out last night. Comment today was how much better and less drawn and tired we looked!			Yes
147	1	11/18/2006		Came home at 2.30 am following a ball - AM in full swing - whoosh, WD40 and hum all very apparent - so still awake at 04.00!!! This is terrible...Even guests complain their ears feel as if they are being tickled/irritated	Yes	Yes	Yes
148	1	11/19/2006	3.16 am	Woke to whoosh, whoosh whoosh, and pronounced hum. V difficult to get back to sleep	Yes		Yes
149	1	11/20/2006		Frosty morning so v loud this morning even though wind is more westerly than southerly	Yes		Yes
150	1	11/21/2006	5.00 am	Woke at 5.00 am - Frosty mornings seem to make the sounds carry so we get whoosh, thump, hum and WD40 noise all early in the morning.	Yes	Yes	Yes
151	1	11/22/2006		Whooshing well yesterday evening - occasional short episodes of AM as well. Particularly from 17.50 onwards. But Julian home at 8pm and less obvious then. Hum ever pervading	Yes		Yes
152	1	11/23/2006	04.11 am	Woken by whoosh at 4.11. Got back to sleep eventually. Hum very loud and insistent this morning.	Yes		Yes
153	1	11/24/2006	04.18 am	Woken by whoosh at 4.18. Couldn't get back to sleep.. Hum very loud and insistent this morning. Thud back later in the day. AM happening from about 10.35 pm onwards, really difficult to get to sleep....Interestingly our house guest has also woken at "stupid o'clock" many mornings this week as well which turn out to be the same times as house although she cant hear anything specific she finds she is startled awake..	Yes	Yes	Yes
154	1	11/25/2006	03.58 am	Woken by AM at 3.58 am, impossible to go back to sleep. By 7 am the AM had gone but the whoosh was very insistent and the hum pervasive.	Yes		Yes

155	1	11/26/2006		We slept at other end of the windfarm last night and slept all night without waking up at all and no hum detectable either. Bliss! 9 hours sleep in a strange bed by the road.....AM from about 5pm - in alternating bursts - really difficult to get to sleep - still awake at 11.30 pm, wd40 and hum also very insistent	Yes		Yes
156	1	11/27/2006	04.03 am	Woken early again - hum, WD40 and whoosh terrible - we seem to have heard it all night - bit like lying 3 yards from a railway track with a never ending train going past...and we took sleeping tablets last night as well. House guest also found it difficult to get to sleep and stay asleep last night - which considering that she used to live in the M25/M4/M40 triangle next to Heathrow airport takes some doing!	Yes		Yes
157	1	11/28/2006	05.02 am	Difficult getting to sleep last night due to whoosh, wd40 and hum. Still awake an hour after going to bed (unusual) but slept till 5 am which is an hour longer than recently.	Yes		Yes
158	1	11/29/2006		Jane exhausted so went to sleep at friends - bed at 10 pm last night slept till 11 am this morning!!. Julian stayed at home - bed at 12 as noise so bad. woke at 05.30 am... Turbines noisy all day today - with periods of Am, WD40 and the hum!	Yes	Yes	Yes
159	1	11/30/2006		Very difficult to get to sleep - still awake (both ) at 1 am....and awake again - briefly at 4.04 am and then 5.55 am	Yes	Yes	Yes
160	1	12/1/2006		Jane slept out last night - as is spending the day in Sheffield and needs to be awake and alert.	Yes		Yes
161	1	12/2/2006		Jane and Julian slept out last night	Yes		Yes
162	1	12/3/2006		Jane and Julian slept out last night, home to the hum!	Yes		Yes
163	1	12/4/2006		Windy day today - woke at 4.14 am - and eventually got back to sleep at 6.15 am so overslept and missed a 9 am appointment!	Yes		Yes
164	1	12/5/2006		Not too bad today as far as the whoosh - but awful hum and WD40 in house.			Yes
165	1	12/6/2006		Woke early am but did get back to sleep. Turbines very very noisy at 10.45 pm onwards as we were trying to get to sleep - ended up taking a sleeping tablet at about 11.30 pm	yes		Yes
166	1	12/7/2006	03.03 am	Its an interesting fact that whenever the wind switches to the south - that is when we are woken up. The wind in the SW does not create a whoosh - but the hum and WD40 effect are louder from this direction.	yes		Yes
167	1	12/8/2006		Great - up three times in the night with a sick child and the accompaniment of whoosh....	yes		Yes
168	1	12/9/2006		Slept OK but WD 40 noise very loud as is hum.....	yes		Yes
169	1	12/10/2006		Slept out last night - till 09.30 am			Yes
170	1	12/11/2006	02.10 am	Woke briefly at 02.10 to general noise of whoosh and associated racket, but did go back to sleep.			Yes
171	1	12/12/2006	03.10 am	Woke up to whoosh at 03.10 But did get back to sleep - WD40 and hum insistent! Properly awake to whoosh at 06.00 (alarm set for 06.35)	Yes		Yes
172	1	12/13/2006	01.16 am	Woke up to whoosh at 01.16!!! But did get back to sleep - WD40 and hum insistent!	Yes		Yes
173	1	12/14/2006	05.00 am	woke abruptly at 5.00 am to whoosh and WD40. Had to get up as noise was so bad.....	Yes		Yes

174	1	12/15/2006	05.17 am	woke abruptly at 5.00 am to whoosh and WD40. Had to get up as noise was so bad.....	Yes		Yes
175	1	12/16/2006		Not a bad day - some whoosh audible at bedtime, and the hum is ever present.	Yes		Yes
176	1	12/17/2006		Hum and Wd40 noises only today			Yes
177	1	12/18/2006		Hum only today			Yes
178	1	12/19/2006		Hum only today			
179	1	12/20/2006		Fog - and although WD40 is present it is getting quieter...			Yes
180	0	12/21/2006		BLISS - FREEZING FOG and just a very very tiny hum! Woke at 7.20 am in own bed!			Tiny
181	0	12/22/2006		BLISS - FREEZING FOG and just a very very tiny hum!			Tiny
182	1	12/23/2006	06.20 am	The hum is back.....with a vengeance			Yes
183	1	12/24/2006		Hum only today			Yes
184	1	12/25/2006		Hum only today			Yes
185	1	12/26/2006		Hum only today			
186	1	12/27/2006		Hum only in the daytime but whooshing started again towards bedtime. (10.30 pm)			
187	1	12/28/2006	19:00	Turbines whooshing with some periods of AM at about 7 pm, difficult to get to sleep due to the racket - sleeping pills required in the end.	Yes		Yes
188	1	12/29/2006	3:00	woke briefly at 3 am and then again at 5.17 to the hum.....	Yes		Yes
189	1	12/30/2006	04.37 am	Woke to the whoosh, and wd 40	Yes		Yes
190	1	12/31/2006	03.16 am	Woke to the hum, got back to sleep, woke again at 05.20 am (both of us).....			Yes
191	0	1/1/2007		Very windy night, ambient wind noise meant anything else was drowned out. Went to bed at 01.30 am slept till 10.45 am in own beds!!!			
192	1	1/2/2007		Still very windy and wind from north so relatively peaceful apart from the hum!			Yes
193	1	1/3/2007		Hum annoying and intense.			
194	1	1/4/2007	04.20 am	Hum very intense			Yes
195	1	1/5/2007	03.46 am; 04.16 am;	Woke to intense hum, dozed for a bit then gave up and got up at 04.20. WD40 effect also loud and whoosh discernible.	Yes		Yes
196	1	1/6/2007		Hum noticeable early morning and evening particularly			Yes
197	1	1/7/2007		Hum noticeable early morning and evening particularly			Yes
198	1	1/8/2007		Hum noticeable early morning and evening particularly			Yes
199	1	1/9/2007		Hum noticeable early morning and evening particularly			Yes
200	1	1/10/2007		Hum noticeable early morning and evening particularly			Yes
201	1	1/11/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
202	1	1/12/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
203	1	1/13/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
204	1	1/14/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes

205	1	1/15/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
206	1	1/16/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
207	1	1/17/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
208	1	1/18/2007		Hum noticeable early morning and evening particularly. Really windy today therefore any background noise outside is masked - but inside the hum is very loud.			Yes
209	1	1/19/2007		Hum noticeable early morning and evening particularly			Yes
210	1	1/20/2007		Hum noticeable early morning and evening particularly			Yes
211	1	1/21/2007		Hum noticeable early morning and evening particularly. Julian complaining of unusual ear bubbling issues.			Yes
212	1	1/22/2007		Hum noticeable early morning and evening particularly			Yes
213	1	1/23/2007		Hum very noticeable early morning and evening particularly, Seems to have increased in pitch. whoosh present as well	Yes		Yes
214	1	1/24/2007		10.20 pm went to bed - hum very loud, then WHUMP, WHUMP started. Got up, dressed and went outside - raining and turbines making WHUMP WHUMP noise very loudly. Eventually managed to get back to sleep at 1.30 am....	Yes		Yes
215	1	1/25/2007		Hum noticeable early morning and evening particularly. Turbine blade noise (whoosh, whoosh) very audible	Yes		Yes
216	1	1/26/2007		Hum noticeable early morning and evening particularly. Turbine blade noise (whoosh, whoosh) very audible. Recorded for Radio 4	Yes		Yes
217	1	1/27/2007		Hum noticeably louder again.			Yes
218	1	1/28/2007		Hum noticeable early morning and evening particularly			Yes
219	1	1/29/2007		Hum noticeable early morning and evening particularly			Yes
220	1	1/30/2007		Hum noticeable early morning and evening particularly			Yes
221	1	1/31/2007	04.30 am	Jane woke at 4.30 to a whoosh - which stopped quite quickly. Hum noticeable early morning and evening particularly	Yes		Yes
222	1	2/1/2007	04.30 am	Julian awake at 04.40 Hum noticeable early morning and evening particularly	Yes		Yes
223	1	2/2/2007	04.30 am	Julian awake at 04.40 Hum noticeable early morning and evening particularly	Yes		Yes
224	1	2/3/2007	05.45 am	Julian awake at 04.40 Hum noticeable early morning and evening particularly			Yes
225	1	2/4/2007		Turbines still last night and this morning. Hum noticeable early morning and evening particularly. Ears irritating again today.			Yes
226	1	2/5/2007		Hum noticeable early morning and evening particularly. Julian has a Bad ear reaction - left ear in particular.			Yes
227	1	2/6/2007		Hum noticeable early morning and evening particularly			Yes
228	1	2/7/2007		Hum slightly less today			Yes
229	1	2/8/2007		A mole returned today to dig three small mole hills. And the hum was less and it snowed.			Yes
230	1	2/9/2007		Hum starting to increase again and noticeable early morning and evening particularly, became moderately loud.			Yes

231	1	2/10/2007		Hum noticeable early morning and evening particularly			Yes
232	1	2/11/2007		Hum noticeable early morning and evening particularly. Some whooshing coming back..			Yes
233	0	2/12/2007		Away			Yes
234	0	2/13/2007		Away			Yes
235	1	2/14/2007		Away			Yes
236	1	2/15/2007	05.10 am	Woken by the whoosh again! Its back - with a vengeance and the hum seems louder and more pervasive than ever. Some modulation present.	Yes		Yes
237	1	2/16/2007	04.55 am	Woken by the whoosh....and the hum, In the evening - at 7pm we also had some short intermittent episodes of Modulation,	Yes		Yes
238	1	2/17/2007	04.02 am	Whoosh, whoosh, whoosh and hum very bad	Yes		Yes
239	1	2/18/2007		Jane away. Hum bad at home			Yes
240	1	2/19/2007	03.16 am, 05.02 am	Woken by the whoosh, whoosh, whoosh, Hum bad too...after perhaps two months of relative peace (apart from the hum ) it looks as if we are back to the problems of all last summer and autumn.	Yes		Yes
241	1	2/20/2007		Slept at our sleeping house.			Yes
242	1	2/21/2007		Slept at our sleeping house.			Yes
243	1	2/22/2007		Slept at our sleeping house.			Yes
244	1	2/23/2007		Slept at our sleeping house.			Yes
245	1	2/24/2007		Slept at our sleeping house.			Yes
246	1	2/25/2007		Slept at our sleeping house.			Yes
247	1	2/26/2007		Slept at our sleeping house.			Yes
248	1	2/27/2007		Slept at home			Yes
249	1	2/28/2007		Slept at home			Yes
250	1	3/1/2007	04.12 am	Slept at home (big mistake) Woke to the whoosh, and wd 40	Yes		Yes
251	1	3/2/2007		Audible throughout the day intermittently. Left at 10 pm to go to sleeping house..	Yes		Yes
252	1	3/3/2007		Slept out last night, invited friends round to hear the modulation tonight (Sat) before we left to go to our sleeping house!	Yes		Yes
253	1	3/4/2007		Ok today (i.e no whoosh) until 5pm when we had some modulation for a short while - then it quietened for a bit - left home at 10 pm to go to sleeping house.	Yes		Yes
254	1	3/5/2007		Audible throughout the day intermittently.	Yes		Yes
255	1	3/6/2007	05.20 am	Slept at home last night...intermittent sleep and finally it all got too much by 05.20 am	Yes		Yes
256	1	3/7/2007		Slept at our sleeping house.			Yes
257	1	3/8/2007		Slept at our sleeping house.			Yes
258	1	3/9/2007		Slept at our sleeping house.			Yes
259	1	3/10/2007		Slept at our sleeping house.			Yes
260	1	3/11/2007		Whoosh audible for most of the day - quite loud in the evening. Audible over a loud background wind speed.	Yes		Yes
261	1	3/12/2007		Woke early for GMTV. Whoosh definitely audible - although not possible to record.	Yes		Yes
262	1	3/13/2007		Slept at our sleeping house.			Yes
263	1	3/14/2007	03.14 am	Startled awake to become instantly aware of the hum and a faint but insistent whoosh			Yes
