Maine Medical Association
Policy RE: Global Climate Change & Wind Power
Approved September 10, 2011

BE IT RESOLVED that the Maine Medical Association reaffirm its position on the health threats posed by global climate change and the need to develop alternative energy sources as one way of reducing climate change, as adopted in its 2009 policy “Global Climate Change” and the enabling 2009 Resolution #4; and

BE IT FURTHER RESOLVED that the Maine Medical Association rescind its 2009 policy “Wind Energy and Public Health” and the enabling 2009 Resolution #7.
