

3rd May, 2015

Dear Senators,

Having already forwarded to you, our Supplementary Submission to the Senate Inquiry, it has occurred to me that you may not really be aware of the serious harm which INFRASOUND does to one's body, and that it is cumulative.

The website www.lowertheboom.org used to be a quick reference, clicking on infrasound.

However today, investigating the above website, it appears it has changed, and as my internet response is SO slow I have been unable to access it at all.

Perhaps you could google INFRASOUND and THE BODY.

We feel it is imperative you familiarise yourselves with the serious manner in which Infrasound attacks such things as the Central Nervous System, the Endocrine system, the Cardiovascular System, Ear Nose and Throat, and so much more.

Then you will realise why we are SO SICK, and so fearful of what a further 23 years exposure to this will do to our bodies, and the bodies of so many young innocent children and babies.

What you will read is quite chilling, and in fact so frightening for we, the innocent people who are exposed to this extreme danger every day and every night, through no fault of our own.

Would you please take the time to learn about the impact of chronic exposure to Infrasound.

Hopefully this will help you understand why wind farms in Australia are a PUBLIC HEALTH DISASTER, and the urgency for prevention of this silent killer.

With thanks,

Ann and Andrew Gardner
